.....
Founded to help women and girls build a world of compassion, equality, safety and justice, the Long Island Fund for Women & Girls promotes a philanthropic response to gender-based inequities through a program of grant-making; assists women to reach their potential as philanthropists; and highlights, for the broader community, the issues adversely affecting women and girls.

Thanks A Million!

Our Thanks a Million Breakfast commemorates a meaningful milestone for the Long Island Fund for Women & Girls. As we complete 2005, we will have cumulatively provided more than \$1 million to organizations that reach out to Nassau and Suffolk counties' female population, providing opportunities for not just essential and sustainable living, but for future advancement. Thus we say thank you to our founding supporters and dedicated donors, who through their commitment, support and belief have brought this moment to fruition.
